About the University

Kuvempu University is an affiliating University in Karnataka established in 1987. It is a University with a distinctive academic profile, blending in itself commitment to rural ethos and a modern spirit. It has 41 Post-Graduate departments of studies in the faculties of Arts, Science, Commerce, Education and Law offering 45 Post-Graduate Programmes, 4 P.G. Diploma and one Under-Graduate programme. The University has 80 affiliated colleges, three constituent colleges. Jnana Sahyadri, the main campus of Kuvempu University is located at Shankaraghatta at a distance of 28 kms from Shimoga town. The campus is only 2 kms from the magnificent Bhadra reservoir across the river Bhadra. The campus sprawls over an area of 230 acres. The entire campus area is free from any form of pollution.

About the Department of Biochemistry

The Department of Biochemistry was started at Jnana Sahyadri campus during the academic year 2005-2006. The department offer M.Sc., Ph.D Courses in Biochemistry and PG-Diploma in Industrial Bioanalytical Techniques. The department has competent and dedicated faculty members who are actively involved in various thrust area research having projects funded by national and international agencies. The department has well equipped infrastructure, laboratory and academic facilities with financial assistance by DST-FIST and VGST. The Department also invites accomplished scientists regularly from various prestigious national and international institutes to deliver special lectures in order to motivate the students to take up research and academic position.

Target Areas of Conference

- Biochemistry
- Microbiology
- Biotechnology
- Botany/Zoology
- Molecular Biology
- Chemistry/Industrial Chemistry
- Forensic Science
- Nanobiotechnology
- Plant Biochemistry
- Cancer Biology
- Environmental Science
- Toxicology

About the Conference

The field of biological research primarily deals with the inventions made by several leading scientists. The researchers have found solutions for the challenges that are faced by the people in various facets of life. There is an immense growth of knowledge over the last couple of decades in solving the problems through innovative approaches. These science and technology discoveries have totally revolutionized the life of human beings in every aspect of life. Despite this, there is a growing need to equip ourselves to face the newer challenges that are emerging all the time. In this conference, some of the recent discoveries and developments in the area of life sciences will be unveiled by renowned scientists from various universities, research institutes and industries. This two days scientific meeting will also provide an opportunity for the young researchers to showcase their research findings and will be a platform for fruitful interactions.
