KARNATAKA STATE HIGHER EDUCATION COUNCIL

Prof. B. Thimme Gowda

Vice Chairman

10 OCT 2022

No. KSHEC/VCP/9/2022

Date: 30-09-2022

To

The Vice Chancellors / Registrars of State Public Universities.

Sir/Madam,

Please find attached a copy of the letter from Shri Karthik Rao Bappanad, Centre Head, CySeck-Cyber Security Karnataka regarding conducting of series of online programmes for spreading awareness of cyber risks, cyber hygiene and best practices amongst the general public and for students at Higher Educational Institutions in the State. The letter is self-explanatory.

In the light of NEP-2020 implementation in the State, as you know, these types of online courses on Cybersecurity are relevant and necessary for both technical and non-technical students. As you also know, 2-credit Cybersecurity course will be there in the 3rd year of the UG Programmes across all disciplines.

I, therefore suggest you to kindly advise your University Faculty and students and also those of affiliated Colleges to make use of this online course by registering themselves to these courses.

Yours sincerely,

B. Whimmefor

(B. Thimme Gowda)

Encl: As above.

October Cybersecurity Awareness Month Programme 2022

Programme for students at Higher Educational Institutes

Dear Madam / Sir,

October is observed as National Cybersecurity Awareness Month. This October, CySecK – Karnataka state's K-tech Centre of Excellence in Cyber Security – is conducting a series of programmes for spreading awareness of cyber risks, cyber hygiene and best practices amongst the public.

The following activities are planned.

- 1. Daily social media posts on various aspects of cybersecurity
- 2. Weekly contests to bring in awareness of cyber risks through gamification
- 3. Online course "Introduction to Cybersecurity" for students at Higher Educational Institutes in the state
- 4. Training on blockchain and cryptocurrency for law enforcement officers
- 5. Six-day technical training for faculty of polytechnic courses on various aspects of cybersecurity
- 6. Launch of Cyber Maatrika an initiative to build model specifications for various cybersecurity solutions

CySecK would like the support from Karnataka State Higher Education Council for conduct of the online course "Introduction to Cybersecurity" for students at Higher Educational Institutes in the state. This course from Cisco will be made available on NASSCOM FutureSkills Prime platform. The registrations will be open from 07-Oct-2022 till 17-Oct-2022. The course will be available for students to complete from 21-Oct-2022 till 07-Nov-2022.

This is a 15-hours online, self-paced learning course. The course provides an introduction to the domain of cybersecurity that would be relevance to both technical and non-technical students. The students will be able to get an understanding of the

various cyber risks, understand the most common threats, attacks and vulnerabilities, find the latest job trends and why cybersecurity continues to grow.

To encourage participation from across the state, top three prizes will be provided to students from each of the 31 districts of the state, in addition to an overall state-level top three winners. All students who successfully complete the course will be provided a certificate.

We request you to issue a circular to Universities across the state so that the programme reaches out to maximum students. The students can register for the course at https://cs-coe.iisc.ac.in/.

particle in any many and like any time may not be a second with

Thanking you, Karthik Rao Bappanad Centre Head, CySecK
